PLEASE REMEMBER

Conger-Elsea will come to you!

On-site PRIVATE CLASSES are available upon request for 10 or more participants.

Dates and a location that work for YOU and YOUR team.

- Eliminate travel while reducing costs ... Hosted at your location or one of your choosing.
- Opportunity to enroll all your employees who need this crucial certification.
- Same 40 hours of Professional Development Credit and in many states our course serves as Continuing Education/Recertification for Engineers.

This Conger-Elsea curriculum has been presented to more than 18,000 attendees who have been certified in the use of this invaluable Root Cause Analysis/Incident Investigation tool. Today it is successfully used by private industry and both federal and state government agencies; where the truth, accuracy, and fact-based analyses are critical and essential.

TAKEAWAYS: Successful candidates/teams will be certified using the Conger-Elsea MORT tools/models that include proficiencies to:

- Resolve problems and mitigate risk.
- Make ethical decisions regarding public and environmental safety.
- Establish analytical processes that are essential for problem solving.
- Implement proven analytic techniques for safety culture, incident and accident investigation, investigative interviewing, fault tree analysis, change analysis, hazard-barrier-target analysis, events, and causal factors analysis, and the Conger-Elsea proprietary analytic tool - Management Oversight and Risk Tree analysis.

To request additional curriculum information, a workshop proposal or if you’d just like to talk shop, we’d love to hear from you. We’re a small business that has the expertise known in many industries as THE solution. Let us add YOU to our client family.

Conger-Elsea ... Your Solutions Partner.
